An attempt was made to kidnap subject. He was selected by Capt. SKURIN (qv) from a roster of Abwehr characters prepared by source FOR THE NKVD. Was listed as a POW released by the US; living under the assumed name of KNOLL on 14 Kurfurststrasse, Berlin-Danlem. Selected because of his availability in the Berlin area and the fact that he had been with the Stapostelle Berlin in charge of CE in the east and west. Source learned about the kidnapping attempt from DOOGIA (qv) who told him that subject had been approached by two German detectives at his home. Subject was at the 279 Station Hospital at the time, indicating that source does not know that subject has moved. Subject refused successfully and the detectives had been reluctant to use force.
